Suggested actions

- Periodic lifestyle modification classes by the concerned departments would help the people believe in the system, which, in the long run, can improve the health and lifestyle of the public in the RGTPP.
- Follow-up calls to the patients will be ideal as the RGTPP public is not fully accustomed to the Ayurvedic medicine and services of our hospital.
- A food and lifestyle survey in the village followed by an interpretation of prevalent disease pathology will help us to guide them with better and more effective methods for healthy living.

School Health Checkup and awareness camp

Date	25.11.2025
Time	10 AM – 01:00 PM
Venue	Barwala
Speciality	General Camp
Organizer	NCA, Barwala

Team members

- Dr. Lalit– Department of Kaumarbhritya

Brief about the event

School Health Checkup and awareness camp was organized in SD High School, Barwala on 25.11.2025. Dr Lalit led the general consultation camp along with two interns of NCA & H. A total of 120 students availed of the facility and they were suggested about hygiene habits, how to stop communicable disease, Swarana Prashna and educated about the departments and facilities of National Ayurveda College & Hospital, Barwala.

Suggested actions

- Follow-up calls to the patients will be ideal as the public is not fully accustomed to the Ayurvedic medicine and services of our hospital.
- A food and lifestyle survey in the village followed by an interpretation of prevalent disease pathology will help us to guide them with better and more effective methods for healthy living.
- Giving a lecture on hygiene habits to school-going children offers several important benefits: It helps children understand the importance of cleanliness in preventing illnesses such as colds, flu, and gastrointestinal diseases. Early awareness can lead to healthier habits.
- Building Lifelong Habits: Children who learn good hygiene practices early are

- more likely to carry those habits into adulthood, promoting long-term health.
- Improved Social Skills: Hygiene is not only about health but also about social etiquette. Cleanliness boosts self-esteem and encourages children to feel more confident in social settings.
